## Stucky Ranch

Ranch Phone: (620) 532-3220

### Annual Production Sale

Wednesday • March 10, 2021 • 1:00 PM at the ranch  
near Kingman, Kansas

Selling 159 Registered Angus Bulls

#### Sale Day Phone

Sale Barn/Office.....	(620) 532-3220
Gordon Stucky Cellular.....	(620) 532-4122
Nic Lampe Cellular .....	(620) 491-8161
Jeff Mafi .....	(816) 344-4266

#### Auctioneer

Jerry Lehmann..... (573) 999-4759

#### Livestock Press Representatives

Guy Peverley, <i>The Stock Exchange</i> .....	(785) 456-4390
Jeff Mafi, <i>Am. Angus Reg. Manager</i> .....	(816) 344-4266
Doug Paul, <i>The Stock Exchange</i> .....	(405) 820-3982
Matt Caldwell, <i>Oklahoma Cowman</i> .....	(913) 755-1105

#### Special Guests

Anne Lampe, Manager, Kansas Angus Association  
Clint Woodrow, President, Kansas Angus Association

#### Accommodations

Wichita Airport Hilton, 2098 Airport Rd., Wichita . (316) 945-5272  
(30 minutes east of ranch)  
Holiday Inn Express, 1236 S. Dugan Rd., Wichita (316) 522-0008  
Roadway Inn, 19941 W. Kellogg, Goddard ..... (316) 794-3366  
(20 minutes east of ranch)  
Budget Host Motel, 1113 E. Hwy 54, Kingman... (620) 532-3118  
(10 minutes west of ranch)  
or contact Gordon Stucky, (620) 532-4122

#### Food

Presale food and refreshments at the ranch, Tuesday evening 6:00 p.m. A complimentary lunch will be served on sale day starting at 11:30.

#### Liability

All persons attending the sale do so at their own risk. The owners or sale staff assume no liability for property loss or accidents that may occur.

#### Sale Location

421 NE 70 Avenue, Kingman, KS. The sale will be held at Stucky Ranch headquarters which is located 6 miles east of Kingman on U.S. Highway 54 to 70th Avenue Exit, then 1 mile south. (See map on page 56)

#### Inspection of the cattle

The sale cattle and the cowherd are available to be seen anytime at the ranch. Please call ahead if possible.

#### Special Thanks

Martin Ufford, Jeff Mafi and Ashlee Tien for photography and videography.

#### Volume Discount

5% discount on 4 bulls or more by one buyer.

#### Catalog Preparation:

Peverley Productions (785) 456-4428.

#### Terms and Conditions

Settlement should be made on your purchase at the conclusion of the sale. Cattle will not be released from the sale premises until payment is received in full. Purchaser assumes the risk of death or injury to their livestock immediately after the animal is sold. Insurance is available to insure the animal until delivery to the buyer's ranch, at the buyer's cost. Stucky Ranch will provide health certificates for interstate shipment to any of the lower 48 states. Any other health related testing not required on the health certificates will be the responsibility of the buyer and will not impede the sale of the animal. Cattle sell under the standard terms and conditions as recommended by the American Angus Association. Stucky Ranch reserves the right to retain a 1/3 revenue sharing interest in all bulls selling. Any bulls in which a 1/2 revenue sharing interest is being retained will be announced prior to their selling.

#### Delivery

Bulls will be delivered to your ranch or a nearby major stockyard, however we will deliver the majority of the bulls directly to your ranch, free of charge, anywhere in the lower 48 states. Pick up your bull on sale day and receive a \$25 per bull discount from the sale price. Some cases might require the buyer to meet the trucker at a stockyard or suitable point with corrals. Please notify the settlement clerk with your specific delivery instructions. Transportation for the females is the responsibility of the buyer.

#### Breeding Guarantee

All bulls and breeding age females sold through the sale are guaranteed to be satisfactory breeders for the first breeding season following the sale. All bulls selling have been semen evaluated, scrotal measured and given a breeding soundness exam by Dr. Larry Bush, Kingman Veterinary Clinic. All yearling heifers are either guaranteed safe in calf or have been given a reproductive tract exam. If a reproductive problem is identified, contact us immediately and a replacement bull or female will be provided if available. Or a sale credit equal to the animal's purchase price minus \$1250 will be issued for the replacement of one animal. This guarantee does not cover illness or death to the animal. There will be livestock mortality insurance available on sale day at the settlement table at the buyer's expense.

#### EPD's

EPD's included in the catalog are based on the Spring 2021 American Angus Association Sire Evaluation Report. EPD's are current as of 2/5/2021.

#### Cattle will sell in salebook order.

- LD Capitalist 316 represents a new proven sire with the pillars of the Angus breed represented in his pedigree. 316 is a double digit calving ease sire with birth weight in the lower 15% of the breed, yet top 15% weaning performance. He is a foot claw improver in the top 20%.
- The 316 sons can be defined as very moderate framed with exceptional fleshing ability and muscle shape. He meets CAB Targeting the Brand criteria, and the daughters are a picture of traditional Angus breed character with beautiful udders and productivity.

# Reference Sires

- This proven performance leader, Niagara will add pounds and muscle in a wide based, powerful package. Ranking in the top 4% of the breed for yearling weight, and top 5% for RADG, these Niagara progeny will insure top performance for backgrounding operations and in the feedyard.
- A top bull for improving foot quality, Niagara ranks in the top 5% for claw and top 10% for foot angle with over 160 foot records. Use Niagara sons on the cowherd for a new bloodline to raise sound structured, big bodied calves with lots of pounds.

# Bull Development

## Feeding:

Bulls are gathered at weaning time (6-9 months of age) and brought to the ranch headquarters. A complete health vaccination and parasite control program is followed. Bulls are tattooed in the right ear and freeze branded for individual identification. A hot brand is used for ranch brand. Bulls are sorted into feeding pens by sire group and size, and grown during the summer at the ranch feeding facility. The bulls are kept at the ranch feeding facility until sale time. A high forage diet consisting of free choice crabgrass hay is provided. A 15% protein ration is bunk fed throughout the feeding period and adjusted to keep bulls growing well, with a 3#/day gain target. Extreme care is taken to develop a bull that is in very athletic condition and results in many years with breeding longevity.

## Breeding Soundness Exam:

Within 45 days prior to the sale, Dr. Larry Bush, Kingman Veterinary Clinic, performs a BSE on all bulls. A semen sample is collected and evaluated to determine motility and morphology. Dr. Bush performs a physical exam and a scrotal measurement is taken.

## Carcass Evaluation:

All bulls and heifers are evaluated using ultrasound technology to determine amount of intramuscular fat, ribeye area, rib fat thickness, and rump fat thickness at yearling time. Casey Worrell, Harper, Texas, a CUP certified technician, has performed our ultrasound evaluations. These evaluations are processed and are on file with the American Angus Association. They are used in formulating the ultrasound carcass database and result in EPDs and progeny ratios that are used to determine the breeding value of current sires and projections for young sires.

## Targeting the Certified Angus Beef Brand

Stucky Ranch has made it easy for you to identify the bulls in this sale offering which best target the CAB quality specification (Modest Choice or higher marbling degree). Each bull in this year's sale that meets the EPD recommendation of the CAB Best Practices for Marbling and \$Grid (\$G) is identified with the Targeting the Brand logo. For more information on the CAB program, please visit [www.CABcattle.com](http://www.CABcattle.com)

## Vaccinations:

2 months – Vista 5 SQ, Vision 8

Weaning day – Inforce 3, Once PMH IN, Vision 7, Safeguard dewormer, Ivermec.

Booster – Vista 5 SQ

Yearling heifers – Vista 3 VL5, Ultra Boss

Bulls (30 days prior to sale) – StayBred VL5, Clean Up II

## Sight Unseen Purchase Guarantee

Buyers unable to attend the sale please contact Gordon Stucky (620) 532-4122, Jeff Mafi (816) 344-4266, Matt Caldwell (913) 755-1105 or any of the field staff prior to the sale. Please call at least 24 hours prior to the sale, let us know your purchase needs and budget range, and we will assist you in purchasing the breeding stock that is the best fit for your operation. After the sale we will inform you of cattle purchased and make arrangements for payment and delivery. 100% satisfaction is guaranteed at your inspection upon arrival. Full payment is required before delivery.

**EPD (Expected Progeny Differences)** are the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database of the American Angus Association. EPDs are expressed in units of measure for the trait, plus or minus. Every animal selling in Stucky Ranch sales have EPDs which have been genomically enhanced from individual genomic tests being added to the base pedigree index EPD values. Also, every animal selling in Stucky Ranch sales have the highest accuracy carcass EPDs possible. This is resulting from individual carcass ultrasound data in large contemporary groups processed by the American Angus Association.

**CED (Calving Ease Direct)** is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first calf heifers.

**BW (Birth Weight EPD)**, expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

**WW (Weaning Weight EPD)**, expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

**YW (Yearling Weight EPD)**, expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

**SC (Scrotal Circumference EPD)**, expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

**Milk (Maternal Milk EPD)**, is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. The part of a calf's weaning weight attributed to mother's milk.

**CW (Carcass Weight EPD)**, expressed in pounds, is a predictor of the difference in hot carcass weight of a sire's progeny compared to progeny of other sires.

**Marb (Marbling EPD)**, expressed as a fraction of the differences in the USDA marbling score of a sire's progeny compared to progeny of other sires.

**RE (Ribeye Area EPD)**, expressed in square inches, is a predictor of the difference in the ribeye area of a sire's progeny compared to progeny of other sires.

**Fat (Fat Thickness EPD)**, expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

**Doc (Docility EPD)** is expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility.

**HP (Heifer Pregnancy EPD)** characterizes differences among sires for the daughter's heifer pregnancy. Reported in units of percentage, a higher EPD sire would be expected to have daughters with a greater probability of becoming pregnant than a sire with a lower EPD.

**\$Maternal Weaned Calf Value (\$M)**, an index expressed in dollars per head, predicts profitability differences from conception to weaning. \$M traits include calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, docility, mature cow weight, claw set and foot angle.

**\$Weaned Calf Value (\$W)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for pre-weaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk and mature cow size.

**\$Grid Value (\$G)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

**\$Beef Value (\$B)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for post-weaning and carcass value compared to progeny of other sires.

**\$Combined Value (\$C)**, an index expressed in dollars per head, includes all 15 traits involved in \$M and \$B. \$C aims for maximum profitability with cowherds that retain some heifers for replacements, but retain ownership on cull heifers and all steers through the feedlot and sell on a quality based carcass grid.

### Production Measurements:

**BW** – Actual birth weight taken day of calving.

**205** – Weaning weight adjusted to 205 day equivalent and dam's age.

**365** – Yearling weight adjusted to 365 day equivalent.

**Hip ht.** – Actual hip height taken at yearling and adjusted to 365 day equivalent.

**SC** – Scrotal circumference measured to the nearest 0.5 centimeter and adjusted to 365 day equivalent.

**%IMF** – The percent of intramuscular fat (marbling) adjusted to 365 days.

**RE** – The ribeye measurement in square inches and adjusted to 365 days.

**Disposition Score** – Each animal has been evaluated numerous times throughout the growing period and has been assigned a numerical score for disposition. We eliminate animals from our system that are too nervous to be manageable in most any operation. However, we caution that when one animal is taken from a large group and put by itself it will usually not have a relaxed attitude.

1 = Docile

4 = Flighty

2 = Restless

5 = Aggressive

3 = Nervous

6 = Very Aggressive

**Dam Udder Score** – The dam has been evaluated for udder quality the day of calving, and has been assigned a two part score for teat size and udder suspension. Teat size is listed first, then udder suspension.

### Teat Size

# Glossary for Sale Animal Data

In our effort to have available a simpler scoring system to select bulls that will help you reach your goals, we have identified the categories of:

**CALVING EASE  
REPLACEMENT FEMALES**

**PERFORMANCE  
CARCASS TRAITS**

We have developed a scoring system to help you successfully purchase bulls best suited for the needs of your herd. Our scoring system is designed on a scale of 1 to 10, with 1 being undesirable and 10 being most desirable for that particular trait. Identifying each individual bull's breeding potential is derived from extensive and long term knowledge of our cowherd. Ongoing complete herd data collection including maternal scores for udder quality and structural soundness, disposition scoring, performance weights, yearling carcass ultrasound measurements, actual herd carcass results, and genomic testing combine to give us the most accurate evaluation currently possible.

## **CALVING EASE**

Bulls with a score of 8-9 will be suitable for use on yearling heifers. These bulls will have "Recommended for heifers" below the trait box. Considerations for the score include: Calving Ease Direct EPD, DNA profile scores for calving ease and birth weight, CED and BW EPDs for the sire and dam. This system has been used successfully by many customers achieving nearly 100% unassisted calving rates from large groups of heifers. Bulls with a score of 7 or lower are fine to use on cows, but not initially recommended for use on heifers. We avoid using higher birth weight EPD sires and dams to keep consistent calving ease and avoid the occasional extreme heavy birth weight calf. Herd management of the females in the weeks prior to calving can also play a significant role in the calving ability of the female.

## **PERFORMANCE**

Bulls with a score of 9 should sire more pounds of beef whether selling at weaning or yearling. These bulls are sired by top percentile ranking bulls for weaning and yearling EPD, and typically will score well in the weight traits when genomic testing. Our goal is keep top performance bulls in the lower percentiles for frame size. This is important when retaining females that will peak at yearling and then maintain for a moderate mature size. Extremes are never healthy for long term cow outfit profitability.

## **REPLACEMENT FEMALES**

Bulls with a score of 9 have a \$Maternal Weaned Calf Value in the top 35% of the National Cattle Evaluation database for non-parent Angus bulls. \$Maternal assumes the underlying breeding objective that individuals retain their own replacement females within herd and sell the rest of cull females and all male progeny as feeder calves. Scores are also influenced by evaluation of structural soundness, disposition, and scrotal size with emphasis on quality of dam's udder and fertility record. We highly recommend commercial producers scrutinize the traits of disposition, structural soundness/feet quality, and potential mature size when selecting replacement heifers. After the group has been heavily culled for these traits, then genomic testing is valuable to rank the remaining group. A yearling heifer should look just like a miniature version of what you want your cowherd to look like!

## **CARCASS TRAITS**

Bulls with a score of 9 have a \$Grid Value Index in the top 20% of the National Cattle Evaluation database for non-parent Angus bulls. Bulls with a score of 8 have a \$Grid Value Index in the top 45% for non-parent Angus bulls. A higher \$Grid Value sire translates into progeny with higher percent Choice, CAB, or Prime carcasses with acceptable yield grades using current economic values. More Stucky Ranch customers are seeing value in owning all or a percentage of their calf crop through harvest. Investing in superior carcass genetics only pays the producer if you sell them on a quality grid. Seldom are premiums paid to producers for calves marketed at weaning or as feeders for potential carcass quality. Bulls identified with the CAB "Targeting the Brand" logo will consistently help achieve a higher percent Certified Angus Beef carcasses.

Dear Friends,

Welcome to our 28th Annual Production Sale! On behalf of the entire Stucky family I invite you to join us on March 10 for an outstanding offering of 150 age advantage Registered Angus bulls.

As you review our sale book, you will find 50 data points per bull to provide our most accurate accounting of his individual genetic merit. Significant time, effort and finance go into assembling this information. However, as seed stock providers it is our responsibility to arm you with the information needed to make breeding decisions that will move your herd toward increased profitability. On the flip side, for those wanting an easy and concise format to purchase bulls without hours of study, please take advantage of our four trait scoring system designed to give you a quick snapshot of the bull's qualifications.

For those needing to sort the bulls by EPD and \$Values, please visit our online sale book hosted by Angus Media. We have the online searchable sale book format available to make quick and easy work of finding the bulls that meet your buying criteria. Please contact me if you need any assistance with this.

The marketing opportunities for high quality Angus cattle continues to grow. Refer to page 29 to review these options and give me a call to discuss alternatives for your operation. The Stucky sired calves and breeding females continue to top the markets and perform well on grid marketing. This past summer, a pen of home raised feeder heifers graded 73% Prime.

You can have high quality beef and a top maternal cowherd!

These bulls are sound, rugged, and ready to turn out on larger groups due to their advanced age! Our breeding guarantee is second to none, and as always if you have any difficulty, we will take care of it to the best of our ability.

I would like to thank all of the people who keep this operation running smoothly throughout the year. They give us their all to help meet deadlines, stay on breeding synchronization schedules, get crops planted and the hay put up. Thank you! Also thanks to our Creator for giving us the opportunity to work His land and care for His stock.

Thanks again to all our past customers for your loyal support, and we look forward to meeting and getting to know future customers! Join us Tuesday evening for a steak supper at 6 p.m. at the ranch.

Best regards,

Gordon

## Delivery Policy

Bulls will be delivered to your ranch or a nearby major stockyard, free of charge, anywhere in the lower 48 states. Pick up your bull on sale day and receive a \$25 per bull discount from the sale price. Some cases might require the buyer to meet the trucker at a stockyard or suitable point with corrals, however we will deliver the majority of the bulls directly to your ranch. Please notify the settlement clerk with your specific delivery instructions. Transportation for the females is the responsibility of the buyer.

Special thanks to Cross Country Genetics North, Westmoreland, KS. Dr. Kirk Gray and staff perform our embryo collections, transfers, and advises us with new synchronization protocols available for our AI program. This new technology helps us gain advantages in percentage of females to exhibit estrous in a very short time frame. This has resulted in a higher conception rate with fixed-time AI and more females calving early in the season. We have been working with Cross Country since 1995 and highly recommend their services. Office phone is (785) 457-3336.

# YOU'VE DONE THE WORK.

Get paid for it.

You've invested in good genetics.  
You've kept all the records.

**AngusLink<sup>SM</sup>** combines USDA Process Verified Programs with a Genetic Merit Scorecard that gives buyers confidence in your calves.

From age and source verification to cattle care and handling, you choose which programs make the most sense for you.

**Group Age & Source:** Verifies the group age and source of the cattle

**Angus-Sired Genetics:** Verifies calves are sired by 100% registered Angus bulls

**Non-Hormone Treated Cattle:** Verifies cattle have never received hormones

**NeverEver<sup>3</sup>:** No antibiotics, no hormones, no animal by-products ever

**Cattle Care & Handling:** Documents proper management, demonstrates quality commitment

**Calf Management:** Documents preventative health program

**Genetic Merit Scorecard<sup>SM</sup>:** Measures the genetic merit of calves for feedlot performance and carcass merit.

*\*Optional, not part of the PVP claims*

Easy and affordable, our customer service representatives walk you through the process.

# MARKETING OPPORTUNITIES

## Auction Markets

The auction market system has been the mainstay of commercial marketing for decades. These three outfits have sold significant numbers of Stucky Ranch sired calves and are very familiar with our genetics and how they perform. They appreciate all of the information you can provide regarding calf vaccination history, genetics of current sires, and recent management practices. This helps them market your stock to its full potential.

### Pratt Livestock

#### Pratt, Kansas

Jake Lewis: 620-672-5961 or 620-770-1069

### Farmers and Ranchers Livestock Comm. Co.

#### Salina, Kansas

Mike Samples: 785-825-0211 or 785-826-7884

### Gates Family Sales

#### Anthony, Kansas

Jay Gates: 620-842-3757 or 620-243-2846

## Feedyards

We have developed a working relationship with the following feedyards because they really appreciate feeding and marketing high quality Angus genetics, and have experience feeding Stucky Ranch sired calves. These companies are flexible with programs that would partner with you on feeding and marketing your calves. This returns valuable data to you regarding the current feeding performance and carcass quality of your calves with the opportunity for marketing premiums.

Triangle H Grain & Cattle

Garden City, KS

Sam Hands 620-276-4004 or 620-640-8487

## KAA Pratt Commercial Female Sale

First Saturday in December at Pratt Livestock

Gordon Stucky and Jake Lewis – co-chairmen

This Kansas Angus Association sponsored sale is designed to give users of Angus genetics the opportunity to showcase commercial Angus bred cows, bred heifers and open heifers.

## Angus Link

Contact Ginette Gottswiller at [anguslink@angus.org](mailto:anguslink@angus.org) or 816-383-5135 or

Troy Marshall at [tmarshall@angus.org](mailto:tmarshall@angus.org) or 719-342-0001.

A program designed to establish a marketing document and corresponding ear tag with valuable information for potential calf and replacement female buyers including source, age and genetics.

Stucky Eisa Erica 4560 - Dam of lots 133-135.

Arguably the most valuable middle aged female in our herd today. This set of Musgrave Exclusive sons have unique breeding potential! They can be used on a diverse set of popular Angus genetics to enrich breed character with maternal power, while bringing body capacity with carcass quality. A powerful SAV Checkmate son sells - Lot 147.

Pasture Minerals,  
Custom Premixes,  
Rock Pellets,  
Protein Supplements

Our mineral programs are based on the following

- Optimum trace mineral and vitamin levels to meet the requirements of the larger, more productive cows found in today's industry.
- Utilization of improved bioavailable trace minerals from Zinpro Availa amino acid complexes and IntelliBond hydroxy trace minerals.
- The availability of several additive choices when requested, to achieve management goals including: Altosid IGR, Galium, Rumensin, Bovatec, Aureomycin, and Safmannan MOS

# BECAUSE POUNDS PAY.

Count on AminoGain® to deliver superior performance

*Amino*  
**GAIN**

- Designed for superior development of all classes of cattle with progressive genetics.
- Provides optimal balance of amino acids from natural sources, vitamins, essential macro and trace minerals including highly available sources of zinc, copper and cobalt.
- Available in 1 lb/hd/d TMR supplements as well as complete, pelleted feeds.
- Research has shown the following response in growing feedlot cattle:
  - 9.9% better ADG
  - 8.9% better feed efficiency
  - 6.4% lower cost of gain

*Based on studies with growing feedlot cattle*

# ANGUS. ONLY ANGUS.

There's only one DNA profile created specifically for Angus cattle.

Angus GS™ is the new standard in genetic testing for Angus cattle. Created by Angus Genetics, the profile is purely Angus DNA. So it will have better predictability and deliver more power and accuracy than any previous generation genomic enhanced EPD, and at greater value. Visit [angus.org/agi](http://angus.org/agi) for the test that only Angus Genetics could create.

FOR ANGUS. BY ANGUS.

**ANGUS**GS  
*Powered by Neogen GeneSeek*

AngusGS genomic DNA test results are ranked on a 1 to 99 score for each individual trait measured. Scores are typically based on a score of 1 being the highest ranking for the trait and 99 being the lowest. As an example for CED (Calving Ease Direct) and CEM (Calving Ease Maternal), a score of 1 would indicate the very easiest calving with a score of 99 being the most difficult calving. In the performance traits of WW (weaning wt.) and YW (yearling wt.) a score of 1 would translate to the heaviest weight and a score of 99 would be the lightest weight. A score of 1 with MILK would indicate heaviest milking and 99 would be lightest milking. In the carcass measurement traits of MARB (Marbling) and RE (Ribeye Area) a score of 1 would be most desirable and 99 least desirable. With TEND (Tenderness), a score of 1 would indicate a most tender meat end product.

# Video Sale Format

Here's how the 2021 Stucky Ranch auction will work:

- \* All sale animals will be on display for viewing starting at 9 a.m. sale day. You are also very welcome to come to the ranch headquarters to view the sale animals any time in the days prior to the auction.
- \* No animals will be brought through the sale ring.... rather every lot will sell via a pre-recorded video clip broadcast on TVs placed in the sale ring area.
- \* The live audio feed and pre-recorded video clip of each sale animal will be broadcast on DV Auction ([www.dvauction.com](http://www.dvauction.com)) for buyers unable to attend the sale. (High speed internet required.)
- \* The pre-recorded video of each sale animal will be available for viewing on our website March 1.

## FREE DELIVERY

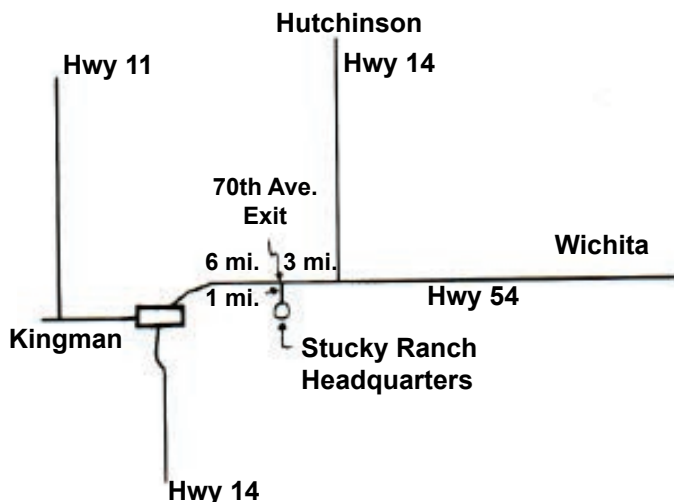

Bulls will be delivered to your ranch or a nearby major stockyard anywhere in the lower 48 states. Save \$25 per bull if you pick them up sale day.

## VOLUME DISCOUNT

5% discount on 4 bulls or more by one buyer.

## Directions:

421 NE 70 Avenue, Kingman, KS  
Stucky Ranch is located 6 miles east of Kingman on US Highway 54 to the 70th Avenue Exit, then one mile south. Signs will be posted sale day.

This sale will be broadcast live on the internet.

**DVAuction**  
Broadcasting Real-Time Auctions

Tami McIntosh from DV Auction

We are pleased to offer the Stucky Ranch Annual Production sale broadcast "live" over the Internet through DV Auction Services. To bid from your computer at home during the sale, complete this simple two step process:

- 1) Visit the DV Auction web site at [www.dvauction.com](http://www.dvauction.com). Register by entering a User Name and Password. Then enter your personal information on the next screen.
- 2) Click on "My Profile" and fill out the banking and lending information requested. Click on "Apply to Bid" and select "Stucky Ranch Annual Production Sale" from the list of sales and click "Apply".

DV Auction will contact you to let you know that you have been approved to bid and buy at the sale "live" from your computer at home. We will also provide you with a buyer number for the sale.

After the sale Gordon Stucky will invoice you for payment of your on-line purchases. Payment will be required before cattle will be delivered.

You must have high speed internet access (DSL, T-1, or Broadband) to be able to bid during the sale. Any questions, please contact Tami with DV Auction at (308) 870-3661. We recommend that you register by March 8, 2021 for on-line bidding on the Stucky Ranch sale.

**Lot 1**

Stucky Southern Charm HP9703 · 19721564 · 9/8/19
